AGES 9 TO 17 EXPLORE THE WORLD OF AERONAUTICS

Because there's no age for dreaming big, AEROCAMPUS Junior awakens passions, reveals talents and creates unforgettable memories. Aimed at children and teenagers aged 9 to 17, our courses offer a unique immersion into the world of aeronautics and space (aeronautical mechanic, pilot, etc.).

Supervised by experienced and passionate activity leaders, young people explore this fascinating panorama through interactive and immersive activities on discovery days (with other young people or with their families) and holidays with or without accommodation.

To extend the experience, AEROCAMPUS Junior provides travelling educational tools, such as the Avion des Métiers and the Navette Copernicus. These tools can be used at all kinds of events: career days, trade fairs, company Christmas trees, to give young people a behind-the-scenes look at the world of aeronautics and space.

Why choose AEROCAMPUS Junior?

Our association has been approved by the Ministry of Youth and Popular Education since 1 December 2022. Our camps have been awarded the "learning camps" label, giving as many people as possible the chance to experience incredible moments in a unique world.

So don't wait, and join us!

HALF DAYS DISCOVERY DAYS

If you're looking for an unusual and memorable activity for your children (aged 9-17) near Bordeaux, our half-day and full-day discovery tours will meet all your expectations. Dive into the mysterious world of aeronautics: flight simulators, visits to aircraft hangars, fun workshops....

HOLIDAYS

Our trips take you right to the heart of the aeronautics and space sector, where you can explore aeronautical professions and acquire practical and theoretical knowledge. From piloting on a P3D simulator to meetings with professionals, visits to aeronautical sites and first flights for those who wish, each day is a complete immersion in this fascinating world.

DISCOVERY TOOLS CAREERS AIRCRAFT AND COPERNICUS SHUTTLE

These two travelling exhibits, designed to introduce young people to careers and training in aeronautics and space, can be visited directly by schools, associations, companies and institutions. Equipped with scientific and educational mediation modules, these tools are perfect for captivating young people while having fun at the same time.

TAILOR-MADE OFFER

AEROCAMPUS Junior also offers flexible, modular formats for associations and semi-public organisations. Are you a leisure centre, local authority or works council? We'll work with you to assess your needs and build a customised programme. Everything is designed to offer an experience tailored to your expectations.
